

A free classroom timer for your projector.

Focus blocks, brain breaks, transitions, and sound cues — plus a random name picker and a noise meter. Nothing to install, no account to make.

Scan to open it now

- **Focus blocks that fit your grade band**

K–2 through university, with break cycles built in.

- **A noise meter that chimes gently**

Set a threshold; the room manages its own volume.

- **A random name picker**

No-repeat mode. Rosters never leave your computer.

- **And it can run test day**

Standard and extended-time groups (1.5×/2×) side by side, with announcements at true wall-clock offsets.

Free for every teacher. No account, no ads.

No student names, dates of birth, or IDs are ever collected.

Built by a solo developer. Tell me what to build next.
